# Ordinances for admission in Bachelor of Education (B.Ed) Two Year CBCS Program

## About the University:

Deen Dayal Upadhyaya Gorakhpur University, established in 1957 by the Uttar Pradesh State Universities Act, in its long eventful journey has constantly striven to live up to its motto, "आ नो भद्राः क्रतवो यन्तु विश्वतः" (Let noble thoughts come to me from all directions) by assimilating diverse ideas, people and beliefs into its academic life.

The geographical location of the University is 26.7480 degrees North (latitude), 83.3812 degrees East (longitude). The University, the first to be established in Uttar Pradesh after Independence and named after the great political thinker, Pandit Deen Dayal Upadhyaya is located in the holy city of Gorakhpur and inherits the spiritual and philosophical legacy of Buddha, Kabir and Guru Gorakshnath.

The University has neat and attractive campus spread over an area of 191.21 acres with well-planned teaching and residential campuses. In the beginning the University was housed in two buildings the Pant Block (inaugurated by late Pt. G.B. Pant) and the Majithia Block (named after Sir Surendra Singh Majithia, who made a significant donation to the building through his family trust). Several other buildings came up during the following decades: they include the Central Library, the Arts Block, the Administrative Block, the Law Faculty, a Student's Union Building, a Gymnasium hall, a Health Centre, a Computer Centre and Research Buildings for Chemistry, Zoology and Botany. Besides, there are separate Buildings for Biotechnology, Defense and Strategic Studies, Electronics, Commerce, Business Management, Education, Home Science, Geography, Psychology, Sociology, Hindi, Ancient History, Fine Arts and Music, Political Science and Adult and continuing Education. At present the University houses 06 faculties comprising of 29 departments that have been playing a significant role in imparting holistic education to the people of the Eastern region since its inception.

In the residential zone, the University have more than 125 quarters for teachers and officials of the University and about the same number of the non-teaching staff. There are several hostels- four boys' hostel, two girls' hostel and one International Students Hostel- which have facilities of mess, reading-cum-TV room, games, etc. The students living in the city are attached to the Delegacy which looks after their academic interests and provides facilities in extra-curricular activities.

As a residential-cum-affiliating State University it can boast of a rich academic legacy, illustrious alumni, experienced, qualified and dedicated faculty members, transparent, effective and responsive administrative set up, state-of-the art library, Wi-Fi campus, ample career growth opportunities for its students, advanced research facilities and a vibrant and safe campus.

With its cherished goal of nourishing creative talent and scientific temper among its students and sensitizing them to larger Education, socio-economic and political realities, the University aspires to contribute meaningfully to regional and national development.

## 1. Admission Ordinance:

1. Deen Dayal Upadhyaya Gorakhpur University Gorakhpur offers fulltime Two year B.Ed CBCS Program in Department of Education. The programme targets those Indian nationals as well as foreign nations who have been permitted by the Government of India. This Programme will run as per Deen Dayal Upadhyaya Gorakhpur University Gorakhpur Academic Program under Ordinance Based Credit System (CBCS) into effect from Academic Session 2021-2022 (and NCTE Rules and regulations as stipulated from time to time).

This programme intends to help in getting equipped with the skills and attitudes necessary to face the challenges usually emerging in schools B.Ed two year , thus, has several objectives like developing various skills and competencies and inculcating values that are essential for improving the performance of the school and school leaders as Teachers. B.Ed is a programme meant for the professional development of the prospective as well as In-service school heads/principals and other interested persons.

**2. General Introduction-** following are the general introduction of the course:

- I. The course shall be a full-time course.
- II. The course shall be divided into two semesters with a the internship and there shall be examination in each semester as per CBCS / Semester rules.
- III. This course shall have the status of vocational course.

### **3. Programme Objectives:**

- i) To develop essential skills, competencies and values needed for effective classroom teaching and school leadership.
- ii) To enable teachers to create an effective teaching learning enabling environment.
- iii) To improve the overall performance of the school teaching learning environment.
- iv) To develop a trained and competent cadre of teachers/ principals.

### **4. Duration and Working Days**

#### **4.1 Duration**

The B.Ed C.BC.S programme shall be of duration of two academic years, which can be completed in a maximum of four years from the date of the admission to the programme.

#### **4.2 Working Days**

There shall be at least two hundred working days each year exclusive of the period of examination and admission.

- (a) The institution shall work for a minimum of thirty six hours in a week (five or six days)] during which physical presence in the institution of all student teachers is necessary.
- (b) The minimum attendance of student-teachers shall have to be 80% for all course work and practicum, and 90% for school internship.

### **5. Intake, Eligibility, Admission Procedure and Fees**

#### **5.1 Intake**

There shall be a basic unit of 50 students, with a maximum of two units. There shall not be more than twenty five students per teacher for a school subject for method courses/ pedagogic courses and other practical activities of the programme to facilitate participatory teaching and learning.

#### **5.2 Eligibility**

- (a) Candidates with at least fifty per cent mark either in the Bachelor's Degree and/or in the Master's Degree in Sciences/Social Sciences/Humanity, Bachelor's in Engineering or

Technology with specialization in Science and Mathematics with 55% marks or any other qualification equivalent thereto, are eligible for admission to the programme.

### **5.3 Admission Procedure**

Admission shall be made on merit on the basis of marks obtained in the qualifying examination and/or in the entrance examination or any other selection process as per the policy of the State Government and the University.

### **5.4 Fees**

The institution shall charge only such fee as prescribed by the affiliating body/state government.

## **6. Curriculum, Programme Implementation and Assessment**

### **6.1 Curriculum**

The B.Ed. course is designed to integrate the study of subject knowledge, human development, and pedagogic knowledge and communication skills. The programme comprises of three broad curricular areas: Foundations of Education, Curriculum and Pedagogic Studies and Engagement with the field.

The courses under each of these curricular areas are based on a close reading of original writings, seminar/term paper presentations and continuous engagement with the field. Transaction of the courses is to be done using a variety of approaches, such as, case studies, discussions on reflective journals, observations of children, and interactions with the community in multiple socio-cultural environments.

#### **(i) Theory Courses: There are fifteen theory courses.**

#### **(ii). Engagement with the Field/Practicum**

The B.Ed. programme shall provide for sustained engagement with the self and the child, Community and School, at different levels and through establishing close connections between different curricular areas. This curriculum area would serve as an important link between the above two board curricular areas through its three components viz.

- (a) Tasks and Assignments that run through all the courses,
- (b) School Internship and
- (c) Courses on Enhancing Professional Capacities as practical activities.

#### **(iii). School Internship**

School internship would be a part of the broad area of 'Engagement with the Field'. Students are to be actively engaged at teaching for 08 weeks.

## **7. Programme Implementation**

The institution shall meet the following specific demands of implementing this professional programme of study;

- i) Prepare a calendar for all activities, including school internship. The school internship and other school contact programmes shall be synchronised with the academic calendar of the school.
- ii) Make an arrangement of schools for the internship as well as other school-based activities of the programme. The arrangement shall have the approval of the district education authorities. These schools shall form basic contact points for all the practicum/ assignment activities and related work during the course of the programme.
- iii) Interns shall maintain reflective journals and observation records, which provide opportunities for reflective thinking.
- iv) Initiate discourse on education by periodically organising seminars, debates, lectures and discussion groups for students and faculty.
- v) Organise academic enrichment programmes including interactions with faculty from parent disciplines; and encourage faculty members to participate in academic pursuits and pursue research,

especially in schools.

- vi) School teachers shall be invited to teacher education institutions for feedback to student-teachers and for extension/guest lectures and organising colloquium.
- vii) There shall be mechanisms and provisions for addressing complaints of students and faculty, and for grievance redressal.
- viii) For school internship, the school teachers and the participating schools set up a mutually agreed mechanism for mentoring, supervising, tracking and assessing the student teachers.
- ix) Board of Studies shall reconsider and communicate the number and format of assignments in every academic session.

## 8. Program Structure (Total Credit- 80)

### 8-A: STRUCTURE OF COURSES OF TWO YEAR B. Ed. PROGRAMME

#### B.Ed Two Year CBCS program

**NOTE:**

\* Each candidate shall have to select two school subjects to be studied as method papers from the following groups and students will select two school subjects from two different groups of pedagogic subjects as grouped hereunder;

Group-A	Group-B	Group-C	Group-D	Group-E
Physical Science	Biological Science	Mathematics	Commerce	Hindi
Geography	Economics	History	Civics	English
Sanskrit	Art & Handicraft		Home Science	Agriculture

## 9. Assessment

All the theoretical courses shall be assigned 30% of maximum marks for internal assessment and remaining 70% for external examination. Practice teaching shall be assessed internally in 50 marks and externally in 150 marks. Candidates must be assessed on the entire Practical Activities. **Practical Activities will be assessed externally through viva-voce on activity records.** The bases of internal assessment may include individual or group assignments, observation records, student portfolio, diaries, journal etc.

### 9-B: Practical Orientation:

Each candidate shall have to compulsorily undergo the following learning experiences of school internship (practical activities) in second semester;

1.	Teaching of minimum 60 (sixty) supervised lessons (20 in each school subject taken up as pedagogy of school- I and II in actual classroom situation and prepare a record of their observation.	20 Marks
----	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------

2.	Observations of 20 peers teaching sessions in the actual classroom situation and prepare a record thereof.	10 Marks
3.	Action Research	05 Marks
4.	Reports of Other school activities	05 Marks

**(C)** Each candidate shall have to compulsorily undergo the following learning experiences of school and social activities in forth semester (practical activities);

S.No.	Activities to be done	Marks allocated
1	Preparing all type of school record	10
2	Educational Excursion and its report	10
3	Survey report of BRC and DIET	10
4	Survey report of Special School	10
5	Literacy and Cleanliness campaign Report	10

### 9-C: Activities of Rovers & Rangers

1. Activities of Rover and Rangers shall be internally evaluated under following grades;

Excellent	-	A
Very Good	-	B
Good	-	C
Satisfactory	-	D
Unsatisfactory	-	E

The marks of Theory Courses and Practical Activities will be mentioned in the relevant column of the mark sheet. Grades of Rovers and Rangers will be mentioned separately in the candidate's mark sheet. The grade however will not affect the division of the examinee. Marks of internal assessment of theory courses and grades of Rover Rangers Activities shall be submitted by the Head/ principal, concerned, to the Controller of Examinations.

### 10. Rules Pertaining to Examinations:

- It shall be mandatory for each student to attend a minimum of 80% theory classes. In case the attendance falls short of the minimum percentage the candidate will not be allowed to appear in the B.Ed. theory examination. As per the provisions of the University ordinances the Head/Dean in the case of University Department of Education and Principal in the case of Degree College will have the power to condone up to 5% of the attendance and the Vice-Chancellor on the recommendation of the Principal/Head/Dean of Education may condone up to 10% of the attendance. Thus, a maximum of 15% attendance may be condoned. Relaxation in attendance may be allowed for candidates participating in sports or other activities sponsored by the University/College or on medical grounds only.
- It shall be mandatory for each student to participate in all practical activities and Rover Rangers activities. In case a student fails to complete, for whatsoever reason, these activities during the academic session, he/she shall be de-barred from taking the B.Ed. practice teaching examination as well as sitting in the final theory examination.
- The students shall be promoted to the second year if he/she has completed all sessional, practical activities and obtained at least 30% marks in each paper.
- In case student fulfills the above requirements and is eligible to sit in the B.Ed. theory and practice of teaching examinations and passes in practical but fails in theory examination then he/she shall be permitted to appear as an ex-student. The B. Ed. Course should be completed in a maximum of four years from the date of admission to the programme as per NCTE norms. It shall be mandatory to pass

in the all practical examination in order to be able to appear as an ex-student in the B.Ed. theory examinations.

### **10-A Conduct of Examinations**

After completion of each semester, the student will appear at the examination conducted by the Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur as per CBCS system in semester mode.

### **10-B Conduct of Examination and Moderation of Results:**

- i. All the two semesters end Examination shall be conducted by the University.
- ii. Answer sheets shall be coded before sending to the examiners and shall be decoded before tabulation of marks.
- iii. A candidate not securing the qualifying marks shall be declared as fail.

Final result of B.Ed two year C.B.C.S program shall be published on the basis of candidate's performance in all the paper spread over all the four semesters.

- iv. The final result will be published only after the candidate has cleared all the papers securing minimum qualifying marks as approved in the regulations.

### **10-C Promotion:**

- i. A student who fails in not more than two papers in first semester examination, such candidate may be promoted to next semester to continue his/her studies. But such a student will have to clear the backlog papers in immediate succeeding examination of that semester.
- ii. A candidate having completed the courses but have failed to appear at the examination may again be allowed to appear in the next examination on payment of prescribed examination fees without further attending the lecture.

### **10-D Result Improvement:**

A student can re-appear in maximum of two theory papers in the immediate succeeding examination of that semester to improve the candidate result. The better of two scores shall be considered for preparation of the final result.

### **10-E Credit System:**

The Credit System as adopted in different Indian Universities as per UGC guidelines/International Universities will be adopted. It may be as follows:

- (a) The credits shall be based on the number of credit hours per week. Normally 1 credit equals to 1 hour of teaching in theory and 1 credit(Practical) equals to 2 hours of practical/project work in a week.
- (b) Credits shall be in whole numbers.
- (c) Credit load through semester system in CBCS form will be implemented in following ways:

#### **Course A: 3 (2+1) Credits means**

**Theory: Two** lectures of one hour each in a week

**Practical: One** lectures of two hour each in a week

Two theory and one practical will be conducted throughout the semester. The total marks will be 100 and divided into following ways for theory and practical exams.

2+1 also explains  $100 \times \frac{2}{3} = 66.66$  theory marks

And  $100 \times \frac{1}{3} = 33.33$  practical marks

Theory Examination: 67 marks will be divided into 40% Mid-term and 60% Final exam as follow

Mid-Term= 40% of 67= 26.8(Mid of semester)

End-Term= 60% of 67= 40.2(End of semester)

Practical: 33 marks (before Full Term)  
 Of theory: 66.66 (say 67 marks)  
 26.8 (say 30 marks)  
 40.2 (40 marks)  
 So total 70 marks  
 Of practical: 33.33 (say 30 marks)

**Grading System:** The grading system, as detailed hereunder in shall be applicable:

**Award of Grades Based on Absolute Marks**

Marks-Range (Out of 100)	Grade	Grade Point
90-100	O	10
80-89	A	9
70-79	B	8
60-69	C	7
50-59	D	6
40-49	E	5
Passed with Grace	P	4
00-39	F	0
Absent examination (Incomplete)	I	-

**Explanation:**

Letter grades **O,A,B,C,D,E and P** in a course mean that the candidate has passed that course.

The “**F**” grade denotes poor performance, i.e., failing in the course. A student has to appear at subsequent examination(s), if provided under the ordinances in all courses in which he/she obtains “F” grade, until a passing grade is obtained.

The “**I**” Grade: The “I” Grade is awarded, when a student does not appear in the examination of course/courses. This shall be treated as “F” Grade.

- **The Performance of a candidate in a semester or up to a semester shall be measured by SGPA and CGPA, details of which are given below:**

*SGPA: Semester Grade Point Average.*

*CGPA: Cumulative Grade Point Average.*

- **Computation of SGPA and CGPA**

The UGC recommends the following procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

1. The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$SGPA (S_i) = \sum (C_i \times G_i) / \sum C_i$$

Where  $C_i$  is the number of credits of the  $i^{th}$  course and  $G_i$  is the grade point scored by the student in the  $i^{th}$  course.

2. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA = \sum (C_i \times S_i) / \sum C_i$$

Where  $S_i$  is the SGPA of the  $i^{th}$  semester and  $C_i$  is the total number of credits in that semester.

3. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

- **Illustration of Computation of SGPA and CGPA and Format for Transcripts**

1. Computation of SGPA and CGPA

**Illustration for SGPA**

Course	Credit	Grade Letter	Grade Point	Credit Point (Credit x Grade)
Course 1	3	B	8	3 * 8= 24
Course 2	4	C	7	7*4=28

Course 3	3	D	6	3*6=18
Course 4	3	O	10	3*10=30
Course 5	3	E	5	3*5=15
Course 6	4	P	4	4*4=16
	<b>20</b>			<b>130</b>

Thus, SGPA =  $130/20 = 6.95$

#### Illustration for CGPA

Semester 1	Semester 2	Semester 3	Semester 4	Semester 5	Semester 6
Credit: 20 SGPA: 6.9	Credit: 22 SGPA: 7.8	Credit: 25 SGPA: 5.6	Credit: 26 SGPA: 6.0	Credit: 26 SGPA: 6.3	Credit: 25 SGPA: 8.0

Thus, CGPA =  $20*6.9 + 22*7.8 + 25*5.6 + 26*6.0 + 26*6.3 + 25*8.0/144 = 6.73$

- To convert CGPA into percentage then  
Percentage = CGPA\*10 for example:  
from above table CGPA = 6.73 Therefore, in this case, the percentage is  $6.73*10 = 67.3\%$

### 11. Pattern of Examination System:

Each course shall be of 100 marks. For evaluation, the overall structure of the distribution of marks in a course shall be such that 30 marks are allotted to various assessments during the semester, while 70 marks shall be allotted for the end semester examinations:

#### A. The scheme of assessment during the semester (for 30 marks):

- The assessment (sessional) in theory courses shall comprise a class test of 1-hour duration for 20 marks and 10 marks for regularity/ assignment/ viva/ quiz/ or any other similar test.
- All Heads/Coordinators shall ensure that all internal assessment marks of sessional are sent to Controller of Examination prior to the commencement of End Semester examination.
- Sessional marks of a course shall be carried over for failed students in the course.

#### B. End Semester Examination and evaluation (for 70 marks):

- The question papers shall be set and the answer-scripts shall be evaluated by the teachers of the concerned courses. If there is more than one teacher teaching the course, the question paper shall ordinarily be set and evaluated by a teacher of the group, appointed by the Board of Examiners.

#### C. Medium of Examination

Candidates will have the option of writing the examination either in Hindi or in English medium.

**D. Practical Examination in the form of Viva-Voce/Practice Teaching/School based activity Examination:** Second semester, Third Semester and fourth semester is having Practical examination. In teaching practice examination Each candidate will be required to teach two lessons and will be evaluated by a panel of two external examiners and one internal examiner appointed by the appropriate authority of the University. It will be mandatory for the institution to place before the examiners' panel Required record of student's sessional work in each practical examination. The examiners' panel will have the power to moderate the internally awarded marks. The examiners shall submit the marks directly to the controller of examination of the University.

## 12. Course Structure

### COURSE- EDUBED-101 Fundamentals of Education

**COURSE OBJECTIVES:** To enable student teachers to understand;

- Basic ideas of education.

2. Role and impact of education.
3. The importance and role of education in the progress of Indian society.
4. The role of education in promoting national integration and international understanding.

UNIT	CONTENT

## **EDUBED-108 Compulsory Practical works and Report writing for enhancing professional capacities**

### **EDUBED-108 A). READING AND REFLECTING ON TEXTS**

**COURSE OBJECTS:** To enable the pupil teachers to;

1. Read and respond to a variety of texts in different ways.
2. Enhance their capacity as readers and writers.
3. Learn to think together.

**COURSE CONTENT:** Reading and reflecting on any two of the following texts;

1. SHANTINIKETAN by Shivani. Radhakrishan Prakashan, 2007.
2. AAPKA BUNTY by Mannu Bhandari, Radhakrishan Prakashan, 2006.
3. What is Worth Teaching by Krishan Kumar, Hyderabad: Orient Blackswan Pvt. Ltd. 1992..
4. BALKON MEIN BHASHA VIKAS by Krishan Kumar, National Book Trust, 2000.
5. DIVA SWAPNA, by Gijju Bhai Badheka Translated into Hindi by Kashinath Trivedi, New Delhi: National Book Trust, 1991.
6. Emile OR On Education by Rousseau, Navision Publications LLC, 2007, <https://books.google.co.in/books?id=U2dbYNVDpY8C&printsec=frontcover&dq=emile&hl=en&sa=X&ei=6HtYVdb8HNGQuASI54HACw&ved=0CB4Q6wEwAA#v=onepage&q&f=false>
7. RTE Act- 2009

### **PRACTICAL ACTIVITIES**

#### **(EDUBED-108 (B). MICRO-TEACHING AND ICT IN CLASSROOM**

**COURSE OBJECTS:** To enable the pupil teachers to;

1. Develop practical understanding of various skills of Micro Teaching.
2. Adapt ICTs in line with principles of classroom activities of teaching and learning.
3. Learn integrating technologies in teaching - learning process.

### **COURSE CONTENT**

Complete any two of the following activities and prepare report/ maintain record;

1. Preparation of skill based micro teaching lesson plans on five teaching skills in each of the two pedagogic subjects.
2. Preparation of five soft macro lesson plans in each of the two pedagogic subjects.
3. Preparation of two educational Power Point Presentations from among the topics related to your compulsory papers.
4. Preparation of class wise, teacher wise and period wise soft time tables and discussion on significance of these time tables.
5. Joining any two educational groups on social media and interacting and maintaining record of total interaction for at least one week.

### **PRACTICAL ACTIVITIES**

#### **EDUBED-108 (C): UNDERSTANDING THE SELF**

**COURSE OBJECTS:** To enable the pupil teachers to;

1. Develop a holistic and integrated understanding of the human self and personality.
2. Develop the skills of personal growth.
3. Develop social relational sensitivity and effective communication skills.

### **COURSE CONTENT**

Performing and report writing on any two of the following;

1. Interaction with minimum 10 children from class or community regarding his/ her educational aspirations and problems.

## **B.Ed THIRD SEMESTER**

### **EDUBED-110- Principles and Methods of Teaching**

**COURSE OBJECTIVES:** To enable student teachers to;

1. Acquire the knowledge of principles and stages of teaching.
2. Develop understanding of process of communication and micro teaching.
3. Understand the learner and teacher centered approaches of classroom teaching.
4. Identify exceptional children and understand different techniques of teaching.
5. Understand the teaching as a profession.
6. Develop understanding of various approaches of teaching.

<b>UNIT</b>	<b>COURSE CONTENT</b>
<b>I</b>	<b>TEACHING AS A COMPLEX ACTIVITY</b> <ul style="list-style-type: none"> <li>• Concept and Principles of Teaching</li> <li>• Theories of teaching,</li> <li>• Stages of teaching</li> <li>• Levels of teaching- Memory, Understanding and Reflective</li> <li>• Challenges of teaching</li> </ul>
<b>II</b>	<b>TEACHING AS A COMMUNICATION PROCESS</b> <ul style="list-style-type: none"> <li>• Process of communication</li> <li>• Lesson Planning- concept, need and steps</li> <li>• Basic Teaching Model</li> <li>• Auto instructional approach: Programmed Instruction, Linear and Branching.</li> <li>• Basic Teaching Model: Feedback, Devices of Teaching, FIACS, Micro teaching, SSST.</li> </ul>
<b>III</b>	<b>METHODS OF TEACHING AND PLANNING:</b> <ul style="list-style-type: none"> <li>• Brain Storming,</li> <li>• Dialogue Method,</li> <li>• Participatory Method, Project Method,</li> <li>• Problem Solving, Team Teaching and Multimedia Approach.</li> </ul>
<b>IV</b>	<b>TEACHING IN A DIVERSE CLASS</b> Teaching learning relationship Learner centered approaches of teaching Teacher centered approaches of teaching Monitorial system of teaching and training, Distance Education, Open Learning System
<b>V</b>	<b>TEACHING AS PROFESSION</b> <ul style="list-style-type: none"> <li>• Concept of teaching profession.</li> <li>• Qualities of a good teacher.</li> <li>• Professional growth of teachers.</li> <li>• Professional commitment and ethics</li> <li>• Action Research –concept need important and steps</li> </ul>

**1--PEDAGOGY OF TEACHING SCIENCES**

**PEDAGOGY OF TEACHING PHYSICAL SCIENCES**

**COURSE OBJECTIVES-** This course aims to

- Develop a broad understanding of the principles and procedures used in modern science education.
- Develop their essential skills for practicing modern Science Education.
- Develop their skills necessary for preparing instructional accessories.
- Prepare models; select teaching strategies essential for preparing designs of lessons.
- Manage instructional activity in such a way that the vast majority of the learners attain most of the objectives of teaching.

UNIT	COURSE CONTENT
I	NATURE OF PHYSICAL SCIENCE Thrust areas of physics and chemistry – Impact of science on modern life, globalization and science. Path tracking discoveries and land mark development in science; Professions in the area of sciences.
II	OBJECTIVES AND ROLE <ul style="list-style-type: none"> <li>• Justification for including physical sciences as a subject of study in the school curriculum. Objective of Teaching Physical Sciences at the secondary level of schooling. Taxonomy of educational objective – Process outcomes, product outcomes, concept attainments, behavioral developers of education. Concept of</li> </ul>

	<p>entering and terminal behavior. Organization of learning experiences for achieving specified behavioral outcomes.</p> <ul style="list-style-type: none"> <li>• .</li> </ul>
III	<p><b>METHODS OF TEACHING AND PLANNING:</b></p> <ul style="list-style-type: none"> <li>• Major methods used for physical science instruction: Lecture, Discussion, Demonstration, Project, Heuristic etc.</li> <li>• Major models of instruction useful for science education such as Basic Teaching Model and Concept Attainment Model.</li> <li>• Planning for teaching and developing year plans, unit plans, lesson plans, content analysis, and pedagogical analysis. Use of Piagetian, Brunerian, Gagnesian principles in developing lesson plan.</li> </ul>
IV	<p><b>TEACHING IN A DIVERSE SITUATION</b></p> <ul style="list-style-type: none"> <li>• Co-curricular and non-formal approaches: Activity approaches and non-formal methods of physical science teaching such as: field trip, science clubs, visits to science museums, original science projects etc. Importance of organizing science fairs and excursions.</li> <li>• Preparation and development of improvised apparatus; preparation, selection and use of teaching aids. The use of computer in teaching physical sciences</li> </ul>
V	<p><b>TEACHING AND ITS EVALUATION</b></p> <ul style="list-style-type: none"> <li>• Evaluating outcomes of physical science teaching: Merits and limitations of different item formats for assessing learning outcomes of science teaching. Writing items in different formats for evaluating learning outcomes at various levels of cognitive, affective and psychomotor domain. Try out, item analysis and selection of items suitable for formative and summative evaluation.</li> <li>• Diagnostic testing and remedial teaching; developing formative evaluation instruments as aids to learning</li> <li>• Curriculum accessories and support material – Textbooks, Journals, Handbooks, student's work books, display slides, laboratory materials, audio – video support material, etc. – their critical evaluation from the point of view of teaching physical science</li> <li>• Action Research –concept need important and steps</li> </ul>

## **METHODS OF TEACHING SCIENCES:**

### **III-METHODS OF TEACHING AGRICULTURAL SCIENCE**

#### **COURSE OBJECTIVES**

**To enable the pupil teachers to;**

1. Acquire the ability to develop instructional Support material.
2. Develop the classroom skills needed for teaching of Agricultural Science using modern methodology.
3. Develop knowledge about the basic principles governing the construction of Agricultural Science curriculum.
4. Develop the ability to organize co-curricular activities and community resource for Promoting Agricultural Science learning.
5. Acquire the ability to complete the plan for instruction.

<b>UNIT</b>	<b>COURSE CONTENT</b>
<b>I</b>	<p><b>MEANING AND NATURE OF AGRICULTURAL SCIENCE</b></p> <ul style="list-style-type: none"> <li>• Concept/Nature of Agricultural Science.</li> <li>• Correlation of Agricultural Science with other Subjects.</li> <li>• Objectives of teaching Agricultural Science at Secondary level</li> <li>• Principles of Agriculture Curriculum construction.</li> </ul>
<b>II</b>	<p><b>METHODS OF TEACHING</b></p> <ul style="list-style-type: none"> <li>• Major methods used for Agricultural instruction: lecture, Discussion, Demonstration, Project, and Heuristic etc.</li> <li>• Major models of instruction useful for science education such as Basic Teaching Model and Concept Attainment Model.</li> <li>• Co-curricular and non-formal approaches: Activity approaches and non-formal methods of Agriculture teaching such as: field trips, gardening, science clubs, visits to science museums, maintenance of aquariums, herbariums, and variorums, taking up of project work. Importance of organizing science fairs and excursions.</li> </ul>
<b>III</b>	<p><b>PLANNING FOR BETTER TEACHING</b></p> <ul style="list-style-type: none"> <li>• Planning for teaching Agriculture: developing year plans, unit plans, lesson plans, content analysis and pedagogical analysis. Use of Piagetian, Bruneian, Gagnesian principles in developing lesson plan.</li> <li>• Curriculum and resource utilization: Principles for designing a Biology curriculum. Approaches to curriculum organization using procedures like concentric, topical, process and integrated approaches. Adapting the curriculum to local needs and requirements and the availability of local resource. Practical work in Agriculture; record writing for Agriculture projects.</li> <li>•</li> </ul>
<b>IV</b>	<p><b>TEACHING IN A DIVERSE SITUATION</b></p> <ul style="list-style-type: none"> <li>• Co-curricular and non-formal approaches: Activity approaches and non-formal methods of physical science teaching such as: field trip, science clubs, visits to science museums, original science projects etc. Importance of organizing science fairs and excursions.</li> <li>• Preparation and development of improvised apparatus; preparation, selection and use of teaching aids. The use of computer in teaching agriculture sciences</li> </ul>

<b>V</b>	<p><b>TEACHING AND ITS EVALUATION</b></p> <ul style="list-style-type: none"> <li>• Evaluating outcomes of Agriculture science teaching: Merits and limitations of different item formats for assessing learning outcomes of science teaching. Writing items in different formats for evaluating learning outcomes at various levels of cognitive, affective and psychomotor domain. **EDUBED-112**

**METHODS OF TEACHING MATHEMATICS**

**COURSE OBJECTIVES: To enable the pupil teacher to:**

1. Understand and appreciate the uses and significance of mathematics in daily life.
2. Learn successfully various approaches to mathematics and to use them judiciously.
3. Know the methods of planning instruction for the classroom.
4. Prepare curricular activities and organize the library in it as per the needs.
5. Appreciate and organize activities to develop aesthetics of mathematics.
6. Obtain feedback both about teaching as well as student's learning.

UNIT	COURSE CONTENT
------	----------------

I	<p><b>MEANING AND NATURE OF MATHEMATICS</b></p> <ul style="list-style-type: none"> <li>• Concept/Nature of Mathematics</li> <li>• Objectives of teaching Meaning of mathematics; History of Mathematics; contributions of Indian Mathematicians with reference to Bhaskaracharya, Aryabhata, Leelavathi, Ramanujam and contribution of Euclid, Pythagoras, Rene Descarteome Science at Secondary level</li> <li>• Objectives of teaching mathematics in terms of instruction and behavior, approaches to teaching of mathematics viz., inductive, deductive, analytical, synthetic, heuristic, project and laboratory, using various techniques for teaching mathematics viz., oral, written, drill assignment, supervised study and programmed learning,</li> <li>• Principles of Mathematics Curriculum construction.</li> </ul>
II	<p><b>METHODS OF TEACHING</b></p> <ul style="list-style-type: none"> <li>• Meaning and importance/purpose of a lesson plan, Preformat of a lesson plan and its rationality, meaning and purpose of a unit-and-unit plan, purpose of an yearly plan, developing/preparing low cost improvised teaching aids relevant to local ethos, skill in maintaining and using blackboard, models, charts, TV, films and video tapes and VCR..</li> </ul>
III	<p><b>PLANNING FOR BETTER TEACHING</b></p> <ul style="list-style-type: none"> <li>• Principles and rationale of curriculum development; organizing the syllabi both logically and psychologically according to the age groups of children, Planning activities and methods of developing the substitutes/alternatives material to the prescribed, for completing the syllabi.</li> <li>• Approaches to curriculum organization using procedures like concentric, topical, process and integrated approaches. Adapting the curriculum to local needs and requirements and the availability of local resource. Practical work in Home Science; record writing for Home Science projects.</li> </ul>
IV	<p><b>TEACHING IN A DIVERSE SITUATION</b></p> <ul style="list-style-type: none"> <li>• Co-curricular and non-formal approaches: Activity approaches and non-formal methods of Mathematics teaching such as: Using mathematics as a game for recreation, organizing Quiz programmes, skill development in answering puzzles, magic squares, word search etc., developing a math's laboratory; learning about the short cuts mentioned in Vedic mathematics.</li> <li>• Preparation and development of improvised apparatus; preparation, selection and use of teaching aids. Computer assisted teaching in Mathematics</li> </ul>
V	<p><b>TEACHING AND ITS EVALUATION</b></p> <ul style="list-style-type: none"> <li>• Evaluating outcomes of Mathematics teaching: Merits and limitations of different item formats for assessing learning outcomes of Mathematics teaching. Writing items in different formats for evaluating learning outcomes at various levels of cognitive, affective and psychomotor domain. Try out, item analysis and selection of items suitable for formative and summative evaluation.</li> <li>• Diagnostic testing and remedial teaching; developing formative evaluation instruments as aids to learning</li> <li>• Curriculum accessories and support material – Textbooks, Journals, Handbooks, student's work books, display slides, laboratory materials, audio – video support material, etc. – their critical evaluation from the point of view of teaching Mathematics.</li> <li>• Action Research –concept need important and steps</li> </ul>

## **EDUBED-112**

### **PEDAGOGY OF TEACHING SOCIAL STUDIES:**

#### **1- METHOD OF TEACHING CIVICS**

**COURSE OBJECTIVES: Student teacher will have the ability to:**

1. Know the concept and significance of civics.
2. Propagate the social ideals through teaching of civics.
3. Know the methods of planning instruction for the classroom.
4. Know the principles and maxims of teaching the subject.
5. Learn successfully various methods of teaching civics.
6. Develop instructional support materials.

UNIT	COURSE CONTENT
I	<p>MEANING AND NATURE OF MATHEMATICS</p> <ul style="list-style-type: none"> <li>• Meaning, nature and scope of civics, place and importance of civics in school curriculum,</li> <li>• Importance of civics in the development of International Understanding correlation of civics with other subjects.</li> <li>• Objectives of teaching civics in democratic India, objectives of teaching the subject at different stages, Instructional objectives,</li> </ul>
II	<p>PRINCIPLES AND METHODS OF TEACHING</p> <ul style="list-style-type: none"> <li>• General principles and maxims of teaching civics,</li> <li>• Presentation of subject matter of civics at different stages, Teaching techniques of civics</li> <li>• Considerations for the selection of methods of teaching, methods of teaching civics: Lecture, Textbook, Project, Discussion Supervised study and Problem solving and modern teaching method</li> </ul>

## EDUBED-113 Educational Technology

**COURSE OBJECTIVES:** To enable the teacher educators;

1. Enable the students to understand significance of E.T. and its important components approaches.
2. Enable the students to understand communication and to design instructional system.
3. Acquaint students with levels, strategies and models of teaching for future improvement.
4. Enable the students to understand the importance of programmed instructions and researches in E.T.
5. Acquaint the students with emerging trends in Educational Technology

UNIT	CONTENT
I	<p>CONCEPT OF EDUCATIONAL TECHNOLOGY</p> <ul style="list-style-type: none"> <li>• Meaning, Scope and Significance and Definition</li> <li>• Components of ET: Software, Hardware and Systems approach.</li> <li>• Educational Technology and instructional technology - bases: Science of learning, five learning types (Gagne) and conditions of learning.</li> </ul>

II	<b>DESIGNING INSTRUCTIONAL TECHNOLOGY</b> <ul style="list-style-type: none"> <li>• Communication and Teaching, Teaching and Instruction, Teaching and Training, Conditioning &amp; Training.</li> <li>• Components of communication, Classroom communication and Mass media approach in Educational Technology.</li> <li>• Competency based teacher education</li> <li>• Analysis of teacher behaviour</li> </ul>
III	<b>NEW TRENDS OF TEACHING</b> <ul style="list-style-type: none"> <li>• Problem solving method, Project method, Supervised method, Discovery approach</li> <li>• Models of Teaching: Concept, need and families</li> <li>• Psychological model of teaching; Glaser's BTM, Bruner's - CAM, Ausubel's -AOM, Flanders-Social Interaction Model</li> </ul>
IV	<b>PROGRAMMED INSTRUCTION</b> <ul style="list-style-type: none"> <li>• Origin and types - linear, branching and Mathetic.</li> <li>• Computer Assisted Instruction (CAI)</li> <li>• Problems of using ICT in Classroom Interaction process</li> <li>• Distance and open learning-concept need and quality</li> </ul>
V	<b>EMERGING TECHNOLOGIES IN EDUCATION</b> <ul style="list-style-type: none"> <li>• Blended learning, Mobile learning, Flipped Learning</li> <li>• Concept of Open Educational Resources (OER) &amp; various usage, Massive Open Online Course(MOOC)</li> <li>• Resource Centers of E.T., CIET, UGC, IGNOU, NOS, SIET, AVRC and EMRC</li> </ul>
